

QUEENSLAND RAIL - QUEENSLAND

OVERVIEW:

Association with Queensland Rail commenced in 1983 and continues to present producing more than five and a half million sleepers over this time from three factories. Austrak has been QR's sole supplier of concrete ties during this period.

The most recent contract is a new "open book alliance" style 5+5 year contract awarded in April 2006. We have also supplied QR with over 1250 turnout bearers since 1984.

PRODUCTS:

- Mainline sleepers 22 & 28 TAL with Fist, Pandrol eClip and Pandrol FastClip systems
- specials include gauge widened, transition, guardrail, flat
- timber replacement sleepers (low profile)
- turnout ties from 1:8.5 to 1:25, swing nose, tangential, crossovers and splay sets

FACTORIES:

- | | | | | |
|---------------|----------------|---------------|------------|-----------------------|
