

COMPANY POLICY

ENVIRONMENT

Austrak is committed to the protection and enhancement of the environment. High environmental performance is an ongoing priority and is achieved by our actions in line with this policy. This policy sits alongside our Sustainability policy as part of our global policy framework, underpinned by our Global Code of Conduct.

Our goal is to minimise the negative impacts of our operations and maximise the quality of the built environment for future generations. Through innovation and application of good practice, we aim to steer the industry to design a sustainable and high-quality built environment with as little environmental impact as possible through the whole asset life-cycle.

Our goal will be realised by:

- Continual improvement of the environmental performance of our activities, products and services through clear objectives, targets and programmes
- Complying with relevant legislation and requirements and regularly evaluating this compliance
- Proactively minimising environmental impacts, including being industry leading in minimising direct and embodied carbon emissions, and providing energy efficient/low carbon assets for our clients
- Improving resource efficiency by reducing the use of natural resources, reducing waste and diverting the waste we do produce away from landfill sites
- Reducing our water consumption and improving water efficiency
- Minimising polluting emissions or discharges to the environment
- Proactively protecting, preserving and enhancing wildlife/flora and their natural habitats
- Enhancing employee understanding of environmental sustainability, through stimulating cultural change and providing clear direction
- Engaging our supply chain in improving their environmental performance and responsible sourcing
- Maintaining registration to ISO 14001:2004
- Strong governance of the environmental agenda, underpinned by monitoring and reporting of progress against environmental targets and objectives

Our policies are reviewed and updated annually to react to client needs and evolve with the world around us to make Austrak the company of first choice for all our stakeholders, whilst challenging and changing the image of construction worldwide.

I personally commit Austrak to this Policy.

Cathal O'Rourke
Managing Director
