

## Company Policy Environment

Austrak is committed to the protection and enhancement of the environment and our goal is to minimise the negative impacts of our products and operations through innovation and application of good practice.

Our goal will be achieved by:

- Continual improvement of the environmental performance of our activities, products and services through clear objectives, targets and programmes
- Complying with relevant legislation and requirements and regularly evaluating this compliance
- Improving resource efficiency by reducing the use of natural resources, reducing waste and diverting the waste we do produce away from landfill sites
- Recycling any process or product waste where possible
- Reducing our water consumption and improving water efficiency
- Reducing our energy consumption and improving energy efficiency
- Reducing embodied carbon in our products
- Minimising polluting emissions or discharges to the environment
- Enhancing employee understanding of environmental sustainability, through stimulating cultural change and providing clear direction
- Maintaining registration to ISO 14001
- Governance of the environmental agenda, underpinned by monitoring and reporting of progress against environmental targets and objectives
